

Photo and video projects for companies

One producer, one contract, one invoice. Project prices, delivery dates in writing, and the documents your procurement team asks for.

What you get as a company

One producer for the whole project

One person holds your project from brief to delivery: schedule, crew, shot list, files. You have one contact.

Purchase orders and VAT invoice

Every project is billed with a full Luxembourg VAT invoice (VAT LU36089387, RCS B290472). We add your PO number on request.

Usage rights

On full payment you receive the usage rights agreed in the contract for the delivered files. We show your project in our portfolio only if your contract allows it.

Contract and NDA

Scope, deliverables, deadlines and price are set in writing before the shoot. We sign NDAs on request. Galleries are password-protected.

Delivery dates in writing

The delivery date is part of the agreement. If we finish early, you get the files early.

Payment and tenders

50% deposit at booking, 50% on delivery, unless the contract says otherwise. For tenders and RFPs we reply the same business day with availability and a line-item quote.

Usual delivery times

- Corporate portraits: preview the next day, final files in about 5–7 days
- Events: 2–4 days
- Studio and commercial photography: up to 14 business days
- Video: 1–4 weeks

Indicative. The date for your project is confirmed in writing.

Fixed prices for whole projects
